SCHEME FOR DEVELOPMENT/STRENGTHENING OF AGRICULTURAL MARKETING INFRASTRUCTURE, GRADING AND STANDARDIZATION

1. BACKGROUND

This scheme has been formulated to develop marketing infrastructure in the country to cater to the post-harvest requirement of production and marketable surplus of various farm products. An Expert Committee set up by the Ministry of Agriculture has estimated that an investment requirement of Rs.11,172 crore in next 10 years would be necessary for infrastructure development in agricultural marketing. A major portion of this investment is expected to come from private sector, for which an appropriate regulatory and policy environment is necessary. The Department has had several rounds of discussions with the States on restrictive provisions of State Act dealing with agricultural marketing (APMC Act) and the need to modify and create lawful space for the private sector in the market development and contract farming. This scheme is reform linked and assistance for development of infrastructure projects will be provided in those States/Union Territories which permit setting up of agricultural markets in private and cooperative sectors and allow direct marketing and contract farming.

2. OBJECTIVES

The main objectives of the Scheme are:

- (ii) To promote competitive alternative agricultural marketing infrastructure by inducement of private and cooperative sector investments that sustain incentives for quality and enhanced productivity thereby improving farmers' income.
- (iii) To strengthen existing agricultural marketing infrastructure to enhance efficiency.
- (iv) To promote direct marketing so as to increase market efficiency through education in intermediaries and handling channels thus enhancing farmers' income.
- (v) To provide infrastructure facilities for grading, standardization and quality certification of agricultural produce so as to ensure price to the farmers commensurate with the quality of the produce.
- (vi) To promote grading, standardization and quality certification system for giving a major thrust for promotion of pledge financing and marketing ,credit, introduction of negotiable warehousing receipt system and promotion of forward and future markets so as to stabilize market system and increase farmers' income.
