Synopsis A survey by NABARD shows rural household monthly income rose by 57.6% in five years, from Rs 8,059 in

2016-17 to Rs 12,698 in 2021-22. Financial savings and insurance coverage also increased. More households took

institutional loans and financial literacy improved. Landholding size decreased from 1.08 hectares to 0.74 hectares.

A recent survey by the National Bank for Agriculture and Rural Development (NABARD) has revealed that average

monthly income of rural household grew by 57.6 per cent in 5 years.

The second 'All India Rural Financial Inclusion Survey (NAFIS) 2021-22 found that the the average monthly income

grew by 57.6 per cent, from Rs 8,059 in 2016-17 to Rs 12,698 in 2021-22.

"Average monthly income of households increased by 57.6 per cent during the five-year period from Rs 8,059 in

2016-17 to Rs 12,698 in 2021-22, suggesting a nominal compound annual growth rate (CAGR) of 9.5 per cent" said

NABARD.

Financial savings also saw a rise, with the average household saving Rs 13,209 annually in 2021-22, compared to Rs

9,104 five years earlier. A significant 66 per cent of households reported saving in 2021-22, up from 50.6 per cent

in 2016-17.

However, the proportion of households with outstanding debt increased from 47.4 per cent to 52 per cent. The

survey also noted remarkable increase in insurance coverage among rural households in India. It found that the

proportion of households with at least one-member insured surged from 25.5 per cent in 2016-17 to 80.3 per cent

in 2021-22. This reflects the growing accessibility of financial services in rural areas post-COVID.

The survey, which covered one lakh rural households, also highlighted improvements in household income.

It also noted that in addition to rising incomes, household expenditures increased as well, with the average monthly

spending going up from Rs 6,646 in 2016-17 to Rs 11,262 in 2021-22. Interestingly, the share of food in total

consumption dropped from 51 per cent to 47 per cent, indicating a shift in spending patterns toward other needs.

The survey noted that the reliance on institutional loans grew, with 75.5 per cent of agricultural households

borrowing from institutional sources in 2021-22, compared to 60.5 per cent in 2016-17. Non-institutional borrowing

among agricultural households dropped from 30.3 per cent to 23.4 per cent.

The survey also highlighted the effectiveness of the Kisan Credit Card (KCC) in expanding financial inclusion among

rural farmers. Pension coverage improved, rising from 18.9 per cent to 23.5 per cent of households.

Other notable findings include a rise in financial literacy and better financial behavior among respondents, although

the average size of landholding shrank from 1.08 hectares to 0.74 hectares over the five-year period. (ANI)
