

## **Corrigendum for Bid Specifications on GeM for Procurement of 30 Desktops**

*Reference: GeM Bid Number- GEM/2024/B/5488274*

In response to queries and feedback received from bidders, a review of the desktop specifications for the above-mentioned bid has been conducted. The following updates to the specifications are hereby revised to better align with the requirements of business and enterprise applications:

### **Revised Specifications:**

1. **Processor Number(Point No. 9 in additional specification parameter):**
  - Original Requirement: Specific model numbers of Intel processors were mentioned.
  - Revised Requirement: The condition requiring specific processor model numbers has been removed.
2. **Chipset Series (Point No. 10 in additional specification parameter):**
  - Original Requirement: Intel Z-series chipset.
  - Revised Requirement: Intel Q-series chipset or Intel H-series chipset

### **Action Required:**

We are now issuing this corrigendum to reflect these updates. Bidders are encouraged to review these revised specifications and adjust their proposals accordingly.

### **Approval and Issuance:**

This corrigendum is being issued following the approval from the competent authority.
