	COMMERCIAL BILL OF MATERIAL
	Instructions
S.No.	Guidelines
1	Summary of Total Cost  The bidder is expected to quote the costs for all items required for fully complying with the requirements of the RFP and the corrigendums in the respective sections of the price bid. The prices for the respective sections would be deemed to include all components required to successfully utilise the solution.
2	NABFINS is not responsible for any arithmetic errors in the commercial bid details sheet committed by the bidders. All formulas & arithmetical calculations will be bidder's responsibility.
3	The bidder is expected to specify the type of licences along with the details with respect to quantity, rate, etc., wherever applicable.
4	In case the bidder includes/combines any line item as part of any other line item in the commercial bid, then this has to be clearly mentioned in the description indicating the line item which contains the combination
5	The bidder has to quote for each line item. If any line item is part of the solution proposed in the RFP response, it has to be referenced. If it is not applicable, then the Bidder has to mention Not Applicable (NA).
6	The Bidder may insert additional line items as applicable based on the solution offered in the respective tabs
7	The Bidders should quote as per the format of Bill of Material ONLY and a masked replica of the Bill of Material should be enclosed in the technical bid with all the details of the offerred product and services exlcuding the price.  Bidder is required to cover component by component licensing details for each of the software components
8	proposed to the NABFINS. In case the proposed product has different modules with different licensing metrics and licensing models, bidder to provide module wise details by adding the rows
9	The <u>masked Bill</u> of Materials which would be submitted as part of the Technical Bill of Material should contain "XX" for ALL the corresponding commercial values that will be present in the unmasked Bill of Material that will be part of the Commercial submission.
10	All amounts in the Bill of Material should be in INR
11	The Bidder should to the extent possible stick to the same structure of the Bill of Material. Hence, the bidder is not expected to delete necessary rows.
12	All the prices quoted by the bidder shall be exclusive of taxes
13	Any additional number of items (software, hardware) and services to be procured by NABFINS in future shall be on pro-rata basis on the rates provided in the Bill of Material.
14	If the bidder has not quoted for any line item mentioned in the Bill of Material, it will deemed considered that bidder has factored the cost for the item in the Bill of Material and No additional charges will be paid other than the one mentioned in the Bill of Material .
15	Bidder is required to submit the commercials during the bid submission and is required to provide the line item wise detailed breakup.
16	Successful bidder shall ensure to deploy all security tools to meet information security requirement indicated in the RFP and any regulatory & statutory and NABFINS guidelines/ policies from time to time. Such associated cost shall be part of the proposal. No separate cost would be payable by NABFINS
II	Software License
1	The bidder has to quote for each line item. If any line item is part of the solution proposed in the RFP response, it has to be referenced. If it is not applicable, then the Bidder has to mention Not Applicable (NA).
2	The Bidder can insert additional line items as applicable based on the solution offered in the various tabs
3 4	The license type, edition and version of the Software has to be clearly described in the Description column.  The Ridder shall provide the maintenance (Warranty & ATS) for entire contract period.
5	The Bidder shall provide the maintenance (Warranty & ATS) for entire contract period.  Bidder is expected to provide a detailed break up of all products and services that are under the scope of ATS/Subscription as part of the technical bid, in the technical bill of materials i.e. the above format is expected to be replicated for each item to be covered under the scope of facilities management.
6	The ATS costs for Production DC (primary site) & DR (Secondary site), testing, development and training environments have to be quoted separately
7	The ATS cost for applications has to be quoted as separate line items in this section. If required, the Bidder has to create additional line items in this section.

## **INSTRUCTION**

Bidders must note that any Warranty pertaining to Software/Applications that extends beyond the contract period due to the Software/Applications supply towards the terminal years of the contract must be provided and supported by the Bidder without any additional cost to the NABFINS.  III Cloud Infrastructure cost  The bidder has to quote for each line item. If any line litem is part of the solution proposed in the RFP response, it has to be referenced. If it is not applicable, then the Bidder has to mention Not Applicable (NA).  The Bidder shall provide the maintenancefor the entire contract period.  The bidder is required to supply implement and maintain the hardware & associated software required for the solution.  Bidder shall procure & provision requisite cloud infrastructure and shall be solely responsible for maintain & managing the cloud, provision requisite security & other activities related to cloud not limited to the one mandated by regulatory & statutory and  Successful bidder shall ensure to deploy all security tools to meet information security requirement indicated in the RFP and any regulatory & statutory and NABFINS guidelines/ policies from time to time. Such associated cost shall be part of the proposal. No separate cost would be payable by NABFINS?  The cloud services offered shall have minimum services availability for contract period extendable in line with NABFINS & bidder contract extension.  Bidder is required to provide the "CSP sizing sheet" providing the details of the infrastructure sizing for all environment required  IV Installation & Implementation  Bidder is required to provide the "CSP sizing sheet" providing the details of the infrastructure sizing for all environment required  Activities and functions to be undertaken for installation and implementation of the software should be as per the RFP.  The services required from FINTECH2/3rd party for ensuring the adherence to the scope, Functional and technical requirement is to be factored in the overall cost. No additional cost/p

- The Sizing provided in the sheet should be adequate to meet the requirement, volumetric, projects and other terms of the RFP.

  The sizing mentioned in the sheet has been validated and reviewed by OEM and has been confirmed adequate to meet to meet the requirement, volumetric, projects and other terms of the RFP.

  The Cloud Infrastructure cost provided by the bidder in the sheet ("Cloud infrastructure cost") is inline with the sizing mentioned above, bidder has noted that NABFINS would not be paying any expense over and above the one mentioned in the cloud infrastructure cost
